Experience

QA Tester (Functional Testing)

Freelancer | Apr 2021 - Present (2 years 10 months)

- Conducting thorough functional testing of software applications, focusing on verifying adherence to specified requirements and user expectations.
- Developing and executing comprehensive test cases, test scripts, and test plans, ensuring maximum coverage of critical functionalities.
- Identifying, documenting, and reporting software defects, collaborating with development teams to facilitate timely resolution.
- Participating in requirement analysis sessions to gain a deep understanding of application features and functionalities.
- Collaborating with cross-functional teams to ensure seamless integration of new features and updates into existing software systems.
- Contributing to improving testing processes and methodologies, promoting efficiency and effectiveness within the QA team.

Finance and Accounting Process Specialist

Capgemini | Nov 2019 - Nov 2020 (1 year 1 month)

- Communicating with clients to discuss account statuses, charges, or discrepancies.
- Establishing and maintaining a good relationship with clients at all levels.
- Verifying and timely processing financial data through the different tools and systems.
- Reconciling customer accounts (invoices).
- Maintaining accurate and complete records, including ledgers, journals, invoices, and receipts.
- Proactively sharing knowledge and best practices.

Marketing Specialist (Google Ads)

Cognizant | Dec 2018 - Jun 2019 (7 months)

- Managing all aspects of Google Ad campaigns.
- Creating and optimizing advertising campaigns and paid search landing pages.
- Analyzing and optimizing ad campaigns to increase return on investment (ROI).
- Using Google Ads to drive a variety of online marketing campaigns.
- Analyzing and optimizing pay-per-click (PPC) campaigns to increase ROI.
- Developing PPC strategies to increase online visibility.

Web Content Reviewer

Nov 2017 - Nov 2018 (1 year 1 month)

- Ensuring that all content is compliant with industry standards and best practices, such as HIPAA or FTC regulations.
- Conducting research to identify potential sources of information for the content.
- Reviewing the content to ensure that it is consistent with the company's mission statement, brand identity, and voice.
- Evaluating the appropriateness of images and other multimedia elements in the piece.
- Suggesting changes to the content to make it more effective or appealing to readers.
- Revising content to meet audience needs by adding or removing material.
